

Kerassentials - Nail Fungus Results, Pros, Cons, Benefits & Price?

Hello my name is Thomas, I brought some important information involving the Kerassentials. If it is really good, if it is worth buying it, I hope you like it. :)

Maintaining the health of your nails and skin is important for both aesthetic and functional reasons. Healthy nails and skin provide a smooth and flawless appearance, boost confidence and self-esteem, and help protect the body from external damage.

Poor nail and skin health can result in unsightly conditions, such as brittle nails, fungal infections, wrinkles, and age spots, that can impact both physical and mental well-being.

Most people indeed forget the importance of healthy nails and skin. Taking care of your nails and skin is a crucial aspect of overall health and wellness and should be treated with the same level of importance as other physical and mental health practices.

Though there are many ways of maintaining healthy skin and nails, if you search for a quick and reliable solution, [Kerassentials will rank at the top](#). Kerassentials is a powerful combination of several essential oils and vitamins that are combined with supporting healthy nail growth, fight toenail fungal infection, prevent skin aging, and maintain healthy skin.

The product is the 'new talk in town.' Kerassentials customer reviews are also very positive, inspiring others to try this nail health supplement. But how about the real results? What if these claims are false? Can this thing cause unpleasant side effects? We have got your back. If you are confused about whether Kerassentials is the

right choice for you or not, keep on reading. This detailed Kerassentials review has revealed the real truth.

Let's start by taking a quick look at the product highlight section.

What Is Kerassentials?

The Kerassentials is a multi-functional product that not only removes toenail fungus but also supports the overall health of your skin and nails. It is a unique blend of natural ingredients that work together to eliminate fungal infections, improve skin hydration and strengthen nails.

Kerassentials, made with essential oils, are an effective solution to this problem. The ingredients include tea tree oil, lavender oil, and flaxseed oil, known for their antifungal properties. These oils penetrate the nails and skin to target the root cause of the infection, eliminating the fungus and preventing its spread.

Not only does it get rid of the fungus, but it also supports the overall health of your skin and nails. It nourishes the skin with moisturizing ingredients like DL-alpha-Tocopherol and Undecylenic Acid. These ingredients provide hydration, prevent dryness, and improve the skin's elasticity. In addition, the oils help to strengthen nails and promote healthy nail growth.

[Don't let this limited time deal slip away, buy now and save big!](#)

How Does The Kerassentials Work?

Kerassentials is completely based on a recent clinical trial performed by scientists of the U.S. Centers for Disease Control and Prevention.

According to the research, it may not be your fault if you have been struggling with toenail fungus. Many people have been struggling with brittle nails and skin, nail fungus, itching, and foul smell even after trying a number of diets and supplements.

This is because the root cause of poor nail health is the remaining fungus, which starts growing again after completing your medication and antibiotic course. According to them, sometimes medications create stronger fungal infections because fungus learns how to survive in your skin and nails. This situation makes it almost impossible to treat nail fungus.

Kerassentials work by offering you rid of itching, foul smell, and toe fungal infections. This product targets the root cause of toenail fungus and itching around the skin of your nails. It reaches the root of fungus, treating fungal infections and giving your skin and nails a smooth and clean look.

Ingredients Used In Kerassentials

Kerassentials is made using a proprietary blend of natural ingredients and clinically proven components. It has a total of 4 special high-quality oils, along with a potent mix of 9 oils and minerals. Below is the complete detail about natural remedies used in Kerassentials:

SUGGESTED USE: Shake before use. Apply 4 times daily (twice in the morning and twice in the afternoon). Use The enclosed brush applicator to coat the nail and a cotton swab to work the solution into the cuticle. For best results, use an emery board to file the nail surface to allow the liquid to absorb more thoroughly. Store at room temperature.

CAUTION: For external use only. Avoid contact with eyes and do not ingest. If swallowed, drink water and seek medical attention immediately. Discontinue use if irritation occurs.

These statements have not been evaluated by the Food & Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Organic Flaxseed Oil

Organic Flaxseed Oil is a rich source of Omega-3 fatty acids, which are essential for healthy skin, hair, and nails. These fatty acids help moisturize the nails, prevent dryness and fungal nail infection, and improve overall nail health.

Flaxseed oil also contains alpha-linolenic acid, which has been shown to increase nail growth and improve nail strength. Additionally, its anti-inflammatory properties may help reduce the risk of fungal infections and other nail problems.

Lemongrass Oil

Lemongrass Oil is a natural ingredient that is commonly used in nail care products due to its numerous benefits.

This oil is known for its antibacterial and antifungal properties, which can help prevent and treat nail infections. Lemongrass oil also has a fresh, citrusy aroma that can help soothe and invigorate the senses.

In addition, it has a nourishing effect on the nails, helping to strengthen and moisturize them. By incorporating lemongrass oil into your nail health supplement, you can enjoy stronger, healthier nails that are protected from infections and environmental damage.

Almond Oil

Almond Oil is a rich, nourishing oil that is widely used due to its numerous benefits. This oil is a good source of vitamin E, which is essential for healthy skin, hair, and nails. Vitamin E is a powerful antioxidant that helps protect the nails from oxidative damage and environmental stress.

Almond oil is also rich in monounsaturated fatty acids, which help moisturize and nourish the nails, preventing fungal growth. Additionally, this oil has a light, non-greasy texture that is easily absorbed into the skin, making it an ideal ingredient for nail care products.

Aloe Vera Gel

Aloe Vera Gel is a natural ingredient that has been used for centuries to soothe and heal skin and nails. This gel is extracted from the leaves of the aloe vera plant and is known for its moisturizing and anti-inflammatory properties.

Aloe vera gel helps hydrate the nails, preventing toenail infections and further fungal infections, and also soothes any irritation or redness around the nail bed.

In addition, it has a nourishing effect on the nails, helping to improve overall nail health. Aloe vera gel is also rich in antioxidants, which help protect the nails from oxidative damage and environmental stress.

Isopropyl Palmitate

Isopropyl Palmitate is a synthetic ingredient commonly used in personal care products, including nail health supplements.

This ingredient acts as a moisturizing and emollient agent, helping to keep the nails hydrated and preventing nail fungus and dryness.

Isopropyl palmitate also has a smooth and creamy texture, making it an ideal ingredient for products that are intended to be massaged into the skin or nails. This ingredient is also known for its quick absorption rate, which helps it to penetrate the nails and surrounding skin quickly and effectively.

Lavender Oil

Lavender Oil has a fresh, floral aroma that is soothing and calming, making it an ideal ingredient for those looking to improve their overall well-being.

In addition, lavender oil has antifungal and antiseptic properties, which can help prevent and treat nail infections.

It also has a moisturizing effect on the nails, treating nail fungus and brittleness. Lavender oil is also rich in antioxidants, which help protect the nails from oxidative damage and environmental stress.

[Hurry and take advantage of this discounted offer before it expires!](#)

Tea Tree Oil

Tea Tree Oil is a natural ingredient that is commonly used in nail care products due to its numerous benefits.

Tea Tree essential oil has strong antifungal and antiseptic properties, making it an effective treatment for nail infections. Tea tree oil also has a moisturizing effect on the nails, helping to prevent dryness and brittleness.

In addition, Tea Tree essential oil is rich in antioxidants, which help protect the nails from oxidative damage and environmental stress. It is also known for its invigorating aroma, which can help soothe and energize the senses.

DL-alpha-Tocopherol

DL-alpha-Tocopherol is a form of Vitamin E, a powerful antioxidant that is essential for healthy skin and nails.

Vitamin E helps protect the nails from oxidative damage and environmental stress and also has a moisturizing effect, helping to prevent dryness and brittleness.

In addition, it is believed to improve nail growth and strengthen the nails, making them less prone to breakage and damage. DL-alpha-tocopherol is also non-irritating and easily absorbed into the skin, making it an ideal ingredient for those with sensitive skin or nails.

Manuka oil

Manuka Oil is a natural ingredient that is extracted from the Manuka tree, a species of tea tree native to New Zealand.

This oil is known for its antifungal, antibacterial, and anti-inflammatory properties, making it an ideal ingredient for treating toenail fungus.

Manuka oil can help prevent and treat nail infections, keeping the nails healthy and strong. In addition, it has a moisturizing effect on the nails, helping to prevent dryness and brittleness. Manuka oil is also rich in antioxidants, which help protect the nails from oxidative damage and environmental stress.

Undecylenic Acid

Undecylenic Acid is a naturally derived ingredient that is commonly used in many nail health products due to its antifungal properties. This ingredient is derived from castor oil and has been shown to treat nail infections caused by fungi and other pathogens effectively.

Undecylenic acid is also non-irritating and gentle, making it an ideal ingredient for those with sensitive skin or nails. This ingredient is also

known for its moisturizing effect, helping to prevent dryness and brittleness.

Clove Bud Oil

Clove Bud Oil is a natural ingredient that is extracted from the flower buds of the clove tree. This oil is known for its antifungal and antiseptic properties. Clove oil can help prevent and treat nail infections, keeping the nails healthy and strong.

In addition, it has a moisturizing effect on the nails, which helps prevent skin aging and toenail fungus.

Clove oil is also rich in antioxidants, which help protect the nails from oxidative damage and environmental stress. This oil has a warm and spicy aroma that is uplifting and invigorating, making it a popular ingredient in aromatherapy and personal care products.

Kerassentials Reviews – What Do The Customers Say?

Kerassentials has gained quite a reputation in the current nail care supplement market. From the very first day of its launch, users have liked the product a lot. If we talk about Kerassentials reviews, most users are highly satisfied with the results of this nail and skin health supplement.

This product has received 4.7 stars and more than 14000 customer reviews which are so positive. Many users have shared their life-changing experiences in the Kerassentials reviews section. Also, [users highly recommend this product to people dealing with nail fungus and poor nail health.](#)

Below are a number of Kerassentials reviews mentioned on its official website. You must read these reviews before making any decision:

Ella writes that Kerassentials has literally saved her feet. Now she is enjoying her healthy nails and skin health. Also, she highly recommends Kerassentials for maintaining healthy skin and nails.

Another user named Riley claims that she shared the Kerassentials with her entire family. She has been dealing with nail fungus since high school. Nothing worked for her to treat nail fungus except the Kerassentials. She is highly satisfied and amazed with the results.

Brandon is also happy with his new nails. He tried many supplements and products for treating fungal infections on his feet, but nothing gave him the desired results. Because of toenail fungus, his one nail was removed. But with Kerassentials, it grew back again. The product also helped him in treating toenail fungus.

Above Kerassentials reviews provide a small fraction of nail and skin health benefits offered by this supplement. The product has provided amazing results to the users. For reading more customer reviews, don't forget to visit the official website of Kerassentials.

Does Science Support The Effects Of Kerassentials?

The science behind the effects of Kerassentials is not readily available. However, many of the ingredients included in this product, such as Vitamin E, Aloe Vera Gel, and Manuka Oil, have been extensively studied and have been shown to have beneficial effects on skin, hair, and nails.

The [official website of Kerassentials](#) features a number of clinical trials performed on Kerassentials ingredients. Below we have analyzed some of these studies to help you understand the science behind Kerassentials.

The first clinical trial is about Tea Tree oil which was examined for its effects on Onychomycosis which is a fungal infection that affects

toenails or fingernails. After the completion of this trial, researchers suggested that Tea Tree Oil may play a role in the treatment of Onychomycosis without side effects.

Vitamin E is also an important ingredient in Kerassentials oil. [This 2020 clinical trial](#) was performed to know the effects of a nail oil Composed of Vitamin E and essential oils to treat fungal infections such as Distal Subungual Onychomycosis. The results of this study indicate that this new topical antifungal oil containing vitamin E and essential oil extracts of lime, oregano, and tea tree can be effective and safe for topical therapy of Onychomycosis, which may play an essential role in treating nail fungus.

Lavender Oil is another essential oil in Kerassentials. It is said to protect nail keratin, fight nail fungus, and support healthy nails. [In this 2015 clinical research](#), scientists tested the antifungal effects of Lavender Oil on *Candida albicans*. The researchers observed a significant difference in the fungal cell count in the Lavender oil group. Researchers suggested that Lavender oil has a strong antifungal activity which can be used as an antifungal agent for treating toenail fungus.

Kerassentials oil also contains Aloe Vera leaf extract, which is known to have antioxidant and antibacterial properties. [This 2017 clinical trial](#) was conducted to know the impacts of Aloe vera on Pathogenic

Otomycosis Species. The alcohol effects of Aloe vera showed a significant antifungal effect on *Aspergillus niger*.

Sweet almond oil is another potent ingredient of Kerassentials. [This clinical research](#) examined the anti-inflammatory and skin barrier repair effects of several oils, including almond oil. The oils showed anti-inflammatory and antioxidant effects on the skin and promoted wound healing. The researchers also suggested that topical application of almond oil may soothe irritated skin and prevent the progression of striae.

Flaxseed oil effects were also examined [in this 2015 clinical trial](#) for its functions and health benefits. Researchers said that Flaxseed oil is rich in α -linolenic acid and lignans which can be very beneficial for the treatment of nail disorders and skin infections.

Overall, the above-mentioned clinical trial suggests that Kerassentials ingredients are extensively tested and thoroughly studied for their efficacy and safety. Thus, science supports the health benefits of Kerassentials nail health formula.

How To Use Kerassentials?

Kerassentials comes in a liquid formula which is super easy to apply. You are suggested to use Kerassentials four times a day. You can use it twice in the morning and two times at noon time. Use an

enclosed brush applicator and a cotton swab to apply this formula on the nail surface and cuticle of your nail.

If you want the best results for your nail and skin, use an emery board nail file tool to grind the edges of nails so that oil can be absorbed more accurately.

Buy Kerassentials Oil – Pricing And Discount Offers

Kerassentials Oil is one of the most affordable and effective solutions for getting healthy skin and nails. [You can purchase one container of Kerassentials at as low as \\$49 under the bulk package option.](#)

One thing to notice, Kerassentials has a proprietary blend of natural ingredients that are carefully sourced using the latest scientific approach. Also, manufacturers have no third-party sellers or partners. This is why Kerassentials oil is available only on its official website.

There is a risk of scams and counterfeit products if you purchase Kerassentials from online platforms or e-commerce websites. So make sure you buy this essential oil from only its official website.

Now, let's take a look at the pricing information:

Basic Option: Buy one container of Kerassentials oil: \$69 + No shipping charges

Popular Option: Buy three containers of Kerassentials oil: \$177 + No shipping charges

Best Value Option: Buy six containers of Kerassentials oil: \$294 + No shipping charges

The image displays three promotional cards for Kerassentials oil, each with a 'BUY NOW' button and a total price. The first card is for 1 bottle at \$69 (30-day supply). The second card is for 6 bottles at \$49 each (180-day supply), marked 'BEST VALUE'. The third card is for 3 bottles at \$59 each (90-day supply), marked 'MOST POPULAR'. Customers have to apply it four times a day which some users may find irritating

If you use it more than recommended times, it may cause irritation and itching

[Kerassentials is available only at its official website](#)

Frequently Asked Questions

Is Kerassentials safe?

Yes. Kerassentials is 100% safe as it uses clinically certified natural ingredients. The product is only for external use, and to the day, customers have not reported any serious side effects of this supplement.

It improves nail health naturally and by promoting the healthy regeneration of skin cells. The product is developed in an FDA-approved facility, following GMP standards.

How long do you need to use Kerassentials?

The Kerassentials supplement starts working immediately after the application. Its antifungal and antibacterial properties start showing significant results within the first weeks. The first thing you notice is the clarity of your toenails; it makes them look alive.

It further replaces damaged nails and promotes the growth of new healthy nails. You can continue the application for 3 to 4 months to remove the toenail fungus from the root.

What causes toenail fungus?

Toenail fungus is a common condition caused by fungal infections. Risk factors include warm and moist environments, trauma to the nails, poor hygiene, excessive sweating, medical conditions like diabetes, and aging.

To prevent toenail fungus, keep feet clean and dry, avoid going barefoot in public, and don't share personal items. If you have toenail fungus, see a doctor for proper treatment.

Early treatment is key to preventing the infections spread and complications. Take steps to reduce your risk and maintain healthy feet and nails.

How to get healthy nails naturally?

To improve the health of your nails naturally, maintain good hygiene, practice proper nail care, eat a balanced diet with biotin and folic acid, stay hydrated, wear gloves for household chores, avoid harsh chemicals, and seek medical attention if needed.

Maintaining healthy habits and avoiding harsh treatments can help promote strong and healthy nails. Drinking plenty of water, eating a nutritious diet, and protecting your nails from damage can also have a positive impact.

Consult with a doctor if you have any signs of infection or an underlying medical condition affecting your nails. Regular care and patience will lead to healthy and beautiful nails.

Can nail polish cause nail fungus?

Wearing nail polish alone is unlikely to cause nail fungus, but it can increase the risk of infection if certain conditions are present.

Wearing nail polish for an extended period of time can create a moist environment that encourages the growth of fungi. Additionally, if you share personal items, you may be at higher risk of fungal infection.

Who should not use Kerassentials?

It's always best to consult with a dermatologist or healthcare professional before using Kerassentials if you have sensitive skin, allergies, or pre-existing medical conditions.

If you experience any adverse reactions after using Kerassentials, stop using it immediately and consult with a healthcare professional. It's also a good idea to read the product label and any accompanying information to see if there are any specific warnings or precautions.

What if you don't see results with Kerassentials?

Though the results are 100% guaranteed, if you are not happy with them, ask for a full refund. All orders are backed by a 60-day money-back guarantee.

Is Kerassentials Legit? – Final Words

In conclusion, Kerassentials is a legitimate product that offers a safe and effective solution for anyone who is [struggling with nail or skin problems](#).

Manufacturers use natural ingredients that are free from harsh chemicals, making Kerassentials a great choice for anyone who is looking for a safe and effective alternative to traditional products. Furthermore, the brand is highly rated by customers, with many people reporting positive results after using their products.

Overall, if you are looking for a reliable and effective solution for your nail or skin problems, Kerassentials is a great choice. Whether you are struggling with toenail fungus or simply want to improve the appearance of your skin and nails, [Kerassentials is the right solution for you](#).
