- Real-time malware and ransomware protection
- Web and email threat blocking
- Privacy and identity monitoring tools
- Multi-device and family protection

### **3. How Trend Micro Auto-Renewal and Billing Works**

 **1-802-557-0358**

Trend Micro subscriptions usually have **auto-renewal enabled by default** to ensure uninterrupted protection. However, this may result in unexpected charges if not reviewed regularly.

 **1-802-557-0358**

When auto-renewal is active:

- Your payment method is charged automatically
- Billing occurs at the end of each subscription cycle
- Protection continues without service interruption

 **1-802-557-0358**

Disabling auto-renewal allows your plan to expire naturally while keeping protection active until the end of the paid term. To verify billing dates or renewal status, contact:
