## What is Codeine

Codeine is an opioid analgesic used to treat mild to moderate pain and to reduce coughing. It works by binding to opioid receptors in the brain to change the way the body feels and responds to pain. Codeine is available in various forms, including tablets, oral solutions, and cough syrups, often combined with other medications such as acetaminophen for enhanced pain relief.

The advertisement features a light blue background with abstract geometric shapes in dark blue and black. On the left, a magnifying glass highlights a box of Codeine Phosphate 10 mg Tablets. The box is white with blue and orange accents, showing '15 mg' and '20 Tablets'. A large black circle with '25% OFF' in white text is overlaid on the magnifying glass. To the right, the 'XTRA PHARMACY' logo is at the top. Below it, the text 'BUY CODEINE ONLINE' is in large blue letters, followed by 'Affordable Prices and Fast Delivery'. A banner states 'Get Flat 25% Discount on All Medicines'. Below this, a 'FLAT DISCOUNT 25% OFF' badge is shown next to a coupon code box that says 'GET FLAT 10% DISCOUNT ON ALL MEDICINES "XTRA25" COUPON CODE'. An 'ORDER NOW' button is positioned below the coupon code. At the bottom, a globe icon and the website 'www.xtrapharmacy.com' are displayed.

## Why Take Codeine

Codeine is taken to:

- Relieve mild to moderate pain where non-opioid analgesics are insufficient.

- Suppress cough associated with colds or respiratory conditions.
  - Manage diarrhea in chronic cases with specific formulations.
- It helps improve patient comfort by reducing pain intensity and controlling troublesome coughs.

## How Many Pills of Codeine

Standard dosing for adults typically ranges from 15 mg to 60 mg every 4 to 6 hours as needed, with a maximum daily dose of 240 mg to 360 mg depending on preparation and patient condition. Tablets come in 15 mg, 30 mg, and 60 mg strengths. Dosage for children and elderly is adjusted carefully due to sensitivity and risk of side effects. Treatment duration should be as short as possible to reduce risk of dependence.
