### What is Hydrocodone 10/325mg?

Hydrocodone 10/325mg combines hydrocodone, a narcotic pain reliever, and acetaminophen (325mg), a non-opioid pain reliever that enhances its efficacy. This combination is prescribed for managing significant pain when other analgesics are insufficient.

#### Uses of Hydrocodone 10/325mg

- Relief of acute moderate to severe pain
- Postoperative pain management
- Chronic pain control under supervision

### Dosage and Administration

Dosage is individualized but typically ranges from 1 to 2 tablets every 4 to 6 hours as needed, not exceeding 8 tablets per day due to acetaminophen limits. Always follow your healthcare provider's instructions strictly to reduce risk of addiction, overdose, or liver damage.
