

Quaser Smartphone Pro Leak FREE | ALL Features Unlocked

[LAST UPDATED: December 16, 2025]

Overview

Xenon V4 is a full-featured QBCore server pack built for high-performance FiveM roleplay. Every element is optimized, tested, and designed to deliver smooth, immersive gameplay with a wide range of custom systems, realistic features, and roleplay-ready content. All files are organized and ready to install on your own server. Key Features

Stable and bug-free QBCore framework Smooth performance with high FPS and no lag
Over 200 custom cars with realistic handling and designs Exclusive custom clothing pack
Dynamic job and heist system with high-stakes missions Police, EMS, and civilian job systems
Advanced drug labs, black market & gun dealer systems Realistic MRPD, Sandy Shores, and Paleto police stations
Full economy with cash, black money, and items Emotes system for player expression Custom loading screen included

Job & Criminal Systems

The server includes a dynamic multiplayer job system with legal and illegal paths. Engage in realistic roleplay with interactive jobs, rewarding heists, and team-based progression. From public to whitelisted jobs, the system supports career growth, in-depth interaction, and balance. Police Roleplay Three fully equipped police departments are included: MRPD, Sandy Shores, and Paleto Bay. Each location features realistic interiors, essential tools, and supports immersive police roleplay with functional systems. Crime & Black Market Dive into the underground economy with complex systems for drugs, black market trades, and weapon dealing. Includes production chains, delivery tasks, combat mechanics, and risk-reward gameplay. Exclusive Assets

200+ custom vehicles: unique models with realistic handling Exclusive clothing pack: role-specific outfits and stylish looks Custom emotes for immersive RP interactions
