The short answer is yes, generally, but it's complicated. 📞+1(888) 429-2577 Third-party agencies like Expedia operate differently than booking direct, and knowing the nuances is key. Whether you are trying to figure out **how to reserve a flight on expedia** or asking **does sapphire reserve cover expedia** for a specific hotel, this guide breaks it all down. We will explore how to protect your trip, manage reservations, and ensure you never lose money on a cancellation.

Does Chase Reserve Travel Insurance Cover Expedia?

 **+1(888) 429-2577** When you book travel, the method of payment matters immensely. The Chase Sapphire Reserve is famous for its robust travel protections, including Trip Cancellation/Interruption Insurance, Auto Rental Collision Damage Waiver, and Lost Luggage Reimbursement. But does this apply when you use an Online Travel Agency (OTA)?

Understanding The Coverage

 **+1(888) 429-2577** The question **does chase reserve travel insurance cover expedia** essentially boils down to whether Chase recognizes Expedia as a valid travel merchant. Fortunately, Chase is very broad in its definition. As long as you charge the full or partial cost of the trip to your eligible Chase card (or use Ultimate Rewards points associated with it), the coverage usually kicks in.

However, "covering Expedia" doesn't mean Chase covers *Expedia's* mistakes. If Expedia messes up your reservation, that is a customer service issue. If a storm cancels your flight booked *via* Expedia, that is where Chase insurance shines. If you are unsure if your specific booking qualifies, or if you need to modify a trip immediately, reach out to  **+1(888) 429-2577** for assistance.

- **Travel Accident Insurance:** Applies to common carrier travel charged to the card.

It is vital to keep your receipts. Expedia receipts sometimes look different than direct airline receipts. Make sure your statement clearly shows the charge.

When Expedia and Chase Sapphire Reserve Don't Mix

 **+1(888) 429-2577** There are edge cases **when expedia and chase sapphire reserve** might conflict. For instance, if you use a "Reserve Now Pay Later" feature where the payment is collected by the hotel directly upon arrival rather than Expedia, the merchant code might appear as the hotel, not a travel agency. While usually fine, it can affect how points are calculated (3x on travel). Furthermore, if you are trying to figure out **how do i reserve and pay for my expedia trip** using points + cash, ensure the cash portion goes on the Reserve card to trigger insurance.
